Quantity Calculation

Bulkgood Shipping Extension · /bulkgood/features/quantity-calculation

Calculate bulkgood shipping costs based on product quantities.

Overview

When enabled, bulkgood prices multiply by quantity ordered.

Configuration

Stores > Configuration > Sales > Shipping Methods > Table Rates

Setting	Description
Calculate Bulkgood Price by Qty	Yes/No

Examples

Enabled (Qty-Based)

Item	Qty	Unit Price	Total
Pallet A	2	\$50	\$100
Pallet B	3	\$30	\$90
Total			\$190

Disabled (Per-Item Type)

Item	Qty	Price	Total
Pallet A	2	\$50	\$50
Pallet B	3	\$30	\$30
Total			\$80

Use Cases

Enable When

- Shipping cost scales linearly with quantity
- Each unit requires separate freight handling
- Volume-based pricing

Disable When

- Flat rate per product type
- Consolidated shipping
- Items ship together regardless of quantity
