Table Rate Setup

Bulkgood Shipping Extension · /bulkgood/features/table-rate-setup

Configure Magento table rates with bulkgood support.

Prerequisites

- Magento Table Rate shipping enabled
- Bulkgood extension installed

Configuration Steps

1. Enable Table Rates

Stores > Configuration > Sales > Shipping Methods > Table Rates

- **Enabled**: Yes
- **Title**: Your shipping method name
- **Method Name**: e.g., "Freight Shipping"

2. Configure Bulkgood Settings

In the same section:

Setting	Recommended
Bulkgood Price Source Priority	Configure priority order
Price Calculation Method	Sum (for most cases)
Calculate by Qty	Yes
Enable Logging	Yes (for debugging)

3. Upload Table Rates CSV

Create CSV with bulkgood column:

```
Country,Region,Zip,Condition,Price,Bulkgood
*,*,*,package_weight,0.00,0
*,*,*,package_weight,50.00,1
```

4. Mark Products as Bulkgood

Catalog > Products > Edit Product

- Set "Is Bulkgood" attribute to Yes
- Or assign bulkgood category

CSV Format

Column	Required	Description
Country	Yes	ISO code or *
Region	Yes	Region code or *
Zip	Yes	Postal code or *
Condition	Yes	Weight/price/qty value
Price	Yes	Shipping price
Bulkgood	Yes	1 or 0
