Configuration Fields

This reference lists the settings exposed by `mageb2b/bulkgood` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

Tablerate

Field	Configuration path	Input	Scope
Bulkgood Price Source Priority	<code>carriers/tablerate/bulkgood_price_priority</code>	Custom control	Default, Website, Store view
Price Calculation Method	<code>carriers/tablerate/price_calculation_method</code>	Select	Default, Website, Store view
Calculate Bulkgood Price by Qty	<code>carriers/tablerate/calculate_by_quantity</code>	Select	Default, Website, Store view
Enable Bulkgood Price Logging	<code>carriers/tablerate/log_enabled</code>	Select	Default, Website, Store view
