Installation

Pricesystem Core is included and installed as a dependency.

Replace `repo.softwaresilo.io`, `softwaresilo`, `https://repo.softwaresilo.io/` and `<token>` with the repository details shown under **Account > Licenses** in your SoftwareSilo account — see Installation & Updates.

```
composer config bearer.repo.softwaresilo.io <token>
composer config repositories.softwaresilo composer
https://repo.softwaresilo.io/
composer require mageb2b/pricesystem-categoryprice:*

php bin/magento module:enable MageB2B_PricesystemCategoryprice
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento cache:flush
```

Check the module state:

```
php bin/magento module:status MageB2B_PricesystemCategoryprice
```

In the Admin, open **Pricesystem > Categoryprice**. You should see separate grids for customer and customer-group category prices.

Continue with configuration.
