# Configuration Fields

This reference lists the settings exposed by `mageb2b/customerdocuments` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

## General Settings

| Field                              | Configuration path                                                  | Input     | Scope                        |
|------------------------------------|---------------------------------------------------------------------|-----------|------------------------------|
| Enabled at frontend                | <code>customerdocuments/general/active</code>                       | Select    | Default, Website, Store view |
| Enable at sidebar                  | <code>customerdocuments/general/enable_sidebar</code>               | Select    | Default, Website, Store view |
| Enable head link                   | <code>customerdocuments/general/enable_head_link</code>             | Select    | Default, Website, Store view |
| Upload path                        | <code>customerdocuments/general/upload_path</code>                  | Text      | Default, Website, Store view |
| Obscure Filename                   | <code>customerdocuments/general/obscure_filename</code>             | Select    | Default, Website, Store view |
| Allowed External Domains           | <code>customerdocuments/general/external_allowed_domains</code>     | Text area | Default, Website, Store view |
| Allowed Extensions                 | <code>customerdocuments/general/allowed_extensions</code>           | Text area | Default, Website, Store view |
| Maximum Upload File Size (MB)      | <code>customerdocuments/general/max_upload_size_mb</code>           | Text      | Default, Website, Store view |
