Configuration Fields

This reference lists the settings exposed by `mageb2b/dpp` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

General Settings

Field	Configuration path	Input	Scope
Enable Digital Product Passports	<code>dpp/general/enabled</code>	Select	Default, Website, Store view
Minimum Completeness Score for Green Status	<code>dpp/general/min_completeness_score</code>	Text	Default, Website

GS1 Digital Link

Field	Configuration path	Input	Scope
Enable GS1 Digital Link URLs	<code>dpp/gsl/use_gsl_format</code>	Select	Default, Website, Store view
Custom Resolver Domain	<code>dpp/gsl/custom_domain</code>	Text	Default, Website, Store view

Visibility dependencies:

- `dpp/gsl/custom_domain` is available when `dpp/gsl/use_gsl_format` is `1`.

Attribute Mapping

Field	Configuration path	Input	Scope
Country of Origin Attribute Code	<code>dpp/attribute_mapping/country_of_origin</code>	Text	Default, Website

Field	Configuration path	Input	Scope
GTIN/EAN Attribute Code	dpp/attribute_mapping/gtin	Text	Default, Website
HS/CN Code Attribute Code	dpp/attribute_mapping/hs_code	Text	Default, Website
Manufacturer Attribute Code	dpp/attribute_mapping/manufacturer	Text	Default, Website
