Configuration Fields

This reference lists the settings exposed by `mageb2b/flex-shipping` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

Flex Shipping

Field	Configuration path	Input	Scope
Enabled	<code>carriers/flexshipping/active</code>	Select	Default, Website
Carrier Title	<code>carriers/flexshipping/title</code>	Text	Default, Website
Sort Order	<code>carriers/flexshipping/sort_order</code>	Text	Default, Website
Enable Audit Logging	<code>carriers/flexshipping/audit_enabled</code>	Select	Default, Website
Audit Retention (Days)	<code>carriers/flexshipping/audit_retention_days</code>	Text	Default
