Configuration Fields

This reference lists the settings exposed by `mageb2b/onestepcheckout` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

General Settings

Field	Configuration path	Input	Scope
Enable One Step Checkout	<code>onestepcheckout/general/enabled</code>	Select	Default, Website, Store view
Checkout Title	<code>onestepcheckout/general/title</code>	Text	Default, Website, Store view
Checkout Description	<code>onestepcheckout/general/description</code>	Text area	Default, Website, Store view
Allow Guest Checkout	<code>onestepcheckout/general/allow_guest</code>	Select	Default, Website, Store view

Visibility dependencies:

- `onestepcheckout/general/title` is available when `onestepcheckout/general/enabled` is 1.
- `onestepcheckout/general/description` is available when `onestepcheckout/general/enabled` is 1.
- `onestepcheckout/general/allow_guest` is available when `onestepcheckout/general/enabled` is 1.

Design Settings

Field	Configuration path	Input	Scope
Primary Color Override (Hex)	<code>onestepcheckout/design/primary_color</code>	Custom control	Default, Website, Store view

Field	Configuration path	Input	Scope
Page Background Override (Hex)	<code>onestepcheckout/design/bg_light</code>	Custom control	Default, Website, Store view
Background Dark (Hex)	<code>onestepcheckout/design/bg_dark</code>	Custom control	Default, Website, Store view
Text Color (Hex)	<code>onestepcheckout/design/text_color</code>	Custom control	Default, Website, Store view
Border Radius	<code>onestepcheckout/design/border_radius</code>	Select	Default, Website, Store view
Font Family	<code>onestepcheckout/design/font_family</code>	Text	Default, Website, Store view
Button Text Color Override	<code>onestepcheckout/design/btn_text_color</code>	Custom control	Default, Website, Store view
Header Background Color	<code>onestepcheckout/design/header_bg</code>	Custom control	Default, Website, Store view
Header Layout	<code>onestepcheckout/design/page_chrome</code>	Select	Default, Website, Store view

Checkout Block Layout

Field	Configuration path	Input	Scope
Drag & Drop Layout Builder	<code>onestepcheckout/layout_blocks/layout_builder_map</code>	Custom control	Default, Website, Store view

Step Functionality

Field	Configuration path	Input	Scope
Billing same as Shipping default	<code>onestepcheckout/functionality/billing_same_as_shipping</code>	Select	Default, Website, Store view
Enable Coupon	<code>onestepcheckout/functionality/enable_coupon</code>	Select	Default, Website, Store view
Enable Gift Card	<code>onestepcheckout/functionality/enable_giftcard</code>	Select	Default, Website, Store view
Enable Authentication (Login/Register/Guest Toggle)	<code>onestepcheckout/functionality/enable_authentication</code>	Select	Default, Website, Store view
Terms and Conditions Position	<code>onestepcheckout/functionality/agreements_position</code>	Select	Default, Website, Store view

The **Terms and Conditions Position** field offers **Order Summary (below discount code)** (default) and **Payment Method**. It controls where Magento's terms-and-conditions block appears on the one-step checkout page.

Shipping Address Fields

Field	Configuration path	Input	Scope
Shipping Order	<code>onestepcheckout/field_order/shipping_order</code>	Custom control	Default, Website, Store view
Shipping Field Builder	<code>onestepcheckout/shipping_fields/field_behavior_map</code>	Custom control	Default, Website, Store view

Billing Address Fields

Field	Configuration path	Input	Scope
Billing Order	<code>onestepcheckout/field_order/billing_order</code>	Custom control	Default, Website, Store view

Field	Configuration path	Input	Scope
Billing Field Builder	<code>onestepcheckout/billing_fields/field_behavior_map</code>	Custom control	Default, Website, Store view

Extra Features

Field	Configuration path	Input	Scope
Enable Order Comment	<code>onestepcheckout/extras/enable_order_comment</code>	Select	Default, Website, Store view
Enable Newsletter Subscription	<code>onestepcheckout/extras/enable_newsletter</code>	Select	Default, Website, Store view
Newsletter Checked by Default	<code>onestepcheckout/extras/newsletter_checked_default</code>	Select	Default, Website, Store view
Enable Delivery Date	<code>onestepcheckout/extras/enable_delivery_date</code>	Select	Default, Website, Store view
Minimum Lead Time (days)	<code>onestepcheckout/extras/delivery_date_min_days</code>	Text	Default, Website, Store view
Maximum Advance (days)	<code>onestepcheckout/extras/delivery_date_max_days</code>	Text	Default, Website, Store view
Disabled Weekdays	<code>onestepcheckout/extras/delivery_date_disabled_weekdays</code>	Multi-select	Default, Website, Store view
Holiday Calendar Country	<code>onestepcheckout/extras/delivery_date_holiday_country</code>	Select	Default, Website, Store view
Additional Blackout Dates	<code>onestepcheckout/extras/delivery_date_blackout</code>	Text area	Default, Website, Store view
Google Places API Key	<code>onestepcheckout/extras/google_places_api_key</code>	Protected text	Default, Website, Store view
Google Places Country Restriction	<code>onestepcheckout/extras/google_places_country_restrict</code>	Multi-select	Default, Website, Store view

Field	Configuration path	Input	Scope
Enable Live Field Validation	<code>onestepcheckout/extras/enable_live_validation</code>	Select	Default, Website, Store view
Enable Trust Badges	<code>onestepcheckout/extras/enable_trust_badges</code>	Select	Default, Website, Store view
Trust Badges HTML	<code>onestepcheckout/extras/trust_badges_content</code>	Text area	Default, Website, Store view
Enable Gift Message	<code>onestepcheckout/extras/enable_gift_message</code>	Select	Default, Website, Store view

Visibility dependencies:

- `onestepcheckout/extras/newsletter_checked_default` is available when `onestepcheckout/extras/enable_newsletter` is 1.
- `onestepcheckout/extras/delivery_date_min_days` is available when `onestepcheckout/extras/enable_delivery_date` is 1.
- `onestepcheckout/extras/delivery_date_max_days` is available when `onestepcheckout/extras/enable_delivery_date` is 1.
- `onestepcheckout/extras/delivery_date_disabled_weekdays` is available when `onestepcheckout/extras/enable_delivery_date` is 1.
- `onestepcheckout/extras/delivery_date_holiday_country` is available when `onestepcheckout/extras/enable_delivery_date` is 1.
- `onestepcheckout/extras/delivery_date_blackout` is available when `onestepcheckout/extras/enable_delivery_date` is 1.
- `onestepcheckout/extras/trust_badges_content` is available when `onestepcheckout/extras/enable_trust_badges` is 1.

GA4 Tracking

Field	Configuration path	Input	Scope
GA4 Measurement ID	<code>onestepcheckout/ga4/ga4_id</code>	Text	Default, Website, Store view

Success Page

Field	Configuration path	Input	Scope
Enable Custom Success Page	<code>onestepcheckout/success_page/enabled</code>	Select	Default, Website, Store view
Layout	<code>onestepcheckout/success_page/layout_columns</code>	Select	Default, Website, Store view

Visibility dependencies:

- `onestepcheckout/success_page/layout_columns` is available when `onestepcheckout/success_page/enabled` is 1.

Cart Recovery

Field	Configuration path	Input	Scope
Enable	<code>onestepcheckout/cart_recovery/enable</code>	Select	Default, Website, Store view
Email Template	<code>onestepcheckout/cart_recovery/template_id</code>	Select	Default, Website, Store view
Threshold (minutes)	<code>onestepcheckout/cart_recovery/abandon_threshold</code>	Text	Default, Website, Store view
Missing Email Retry Interval (hours)	<code>onestepcheckout/cart_recovery/retry_interval_hours</code>	Text	Default, Website, Store view
Maximum Missing Email Attempts	<code>onestepcheckout/cart_recovery/max_retry_attempts</code>	Text	Default, Website, Store view
Existing Cart	<code>onestepcheckout/cart_recovery/existing_cart_strategy</code>	Select	Default, Website, Store view

Visibility dependencies:

- `onestepcheckout/cart_recovery/template_id` is available when `onestepcheckout/cart_recovery/enable` is 1.

- `onestepcheckout/cart_recovery/abandon_threshold` is available when `onestepcheckout/cart_recovery/enable` is `1`.
- `onestepcheckout/cart_recovery/retry_interval_hours` is available when `onestepcheckout/cart_recovery/enable` is `1`.
- `onestepcheckout/cart_recovery/max_retry_attempts` is available when `onestepcheckout/cart_recovery/enable` is `1`.
- `onestepcheckout/cart_recovery/existing_cart_strategy` is available when `onestepcheckout/cart_recovery/enable` is `1`.

Multi-Address Shipping

Field	Configuration path	Input	Scope
Enable	<code>onestepcheckout/multi_address/enable</code>	Select	Default, Website, Store view

Settings without an Admin field

Two summary settings have no Admin control and can only be changed through `config:set` or a `config.xml` default:

Configuration path	Effect	Default
<code>onestepcheckout/summary/show_taxes</code>	Includes the tax row in the order-summary totals when enabled. The Hyva checkout reads this flag directly.	<code>1</code>
<code>onestepcheckout/summary/show_image</code>	Shows product thumbnails in the order-summary item list. The Hyva checkout reads this flag directly.	<code>1</code>

Both are exported into the checkout configuration under `summary`. Set them per store scope, for example `php bin/magento config:set --scope=stores --scope-code=<code> onestepcheckout/summary/show_image 0`.
