Configuration Fields

This reference lists the settings exposed by `mageb2b/ordered-products` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

General Settings

Field	Configuration path	Input	Scope
Enable Ordered Products	<code>orderedproducts/general/enabled</code>	Select	Default, Website, Store view
Show link in customer account	<code>orderedproducts/general/show_link_in_account</code>	Select	Default, Website, Store view
Show each product only once	<code>orderedproducts/general/show_each_product_once</code>	Select	Default, Website, Store view
Prefill reorder quantity with ordered quantity	<code>orderedproducts/general/prefill_ordered_qty</code>	Select	Default, Website, Store view
Price Mode	<code>orderedproducts/general/price_mode</code>	Select	Default, Website, Store view
Default page size	<code>orderedproducts/general/default_page_size</code>	Text	Default, Website, Store view
Max page size	<code>orderedproducts/general/max_page_size</code>	Text	Default, Website, Store view
