Configuration Fields

This reference lists the Magento Admin settings exposed by the base package and its documented add-ons: `mageb2b/pricesystem-pricelist`, `mageb2b/pricesystem-pricelist-importexport`.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

mageb2b/pricesystem-pricelist

Pricelist settings

Field	Configuration path	Input	Scope
Enable download link	<code>pricesystem/pricelist/enable_download</code>	Select	Default, Website
Csv Delimeter	<code>pricesystem/pricelist/csv_delimeter</code>	Text	Default, Website
Csv Encloser	<code>pricesystem/pricelist/csv_encloser</code>	Text	Default, Website
Can product have multi qty price	<code>pricesystem/pricelist/can_product_have_multi_qty_price</code>	Select	Default, Website
Use random name for pricelist if not supplied	<code>pricesystem/pricelist/use_random_pricelistname</code>	Select	Default, Website
Deactivate old pricelist	<code>pricesystem/pricelist/deactivate_old_pricelists</code>	Select	Default, Website
Enable auto-assignment of customers to a pricelist	<code>pricesystem/pricelist/enable_auto_assign_customers_to_pricelist</code>	Select	Default, Website
If enabled, strict comparison (===) is used for matching; otherwise, loose comparison (==) is applied.	<code>pricesystem/pricelist/match_exact_type</code>	Select	Default, Website
Merge pricelist qtys	<code>pricesystem/pricelist/merge_pricelist_qty</code>	Select	Default, Website
Merge base pricelist under Pricelist in My Prices	<code>pricesystem/pricelist/merge_base_pricelist_in_my_prices</code>	Select	Default, Website
Enable base pricelist validation	<code>pricesystem/pricelist/enable_base_pricelist_validation</code>	Select	Default, Website

Field	Configuration path	Input	Scope
Auto-load Catalog Products on pricelist edit	<code>pricesystem/pricelist/auto_load_catalog_products_in_admin</code>	Select	Default

Visibility dependencies:

- `pricesystem/pricelist/match_exact_type` is available when `pricesystem/pricelist/enable_auto_assign_customers_to_pricelist` is 1.

mageb2b/pricesystem-pricelist-importexport

Pricelist Import

Field	Configuration path	Input	Scope
Use Product ID as	<code>pricesystem/pricelist_import/product_id_alias</code>	Select	Default, Website
