Price Adjustment

Pricing System Overview · /pricesystem/price-adjustment

The Price Adjustment feature lets you update existing Pricesystem prices in bulk by applying an increase/decrease rule (fixed or percent) with optional filters and conditions.

You generate a preview first, then queue a job; the queued job is applied asynchronously via a Magento message queue consumer.

The screenshot displays the Magento Price Adjustment interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, Find Partners & Extensions, Staff, Pricesystem, Sublogin, and R2R Quotes. The main content area includes a 'Conditions' section with a text input for conditions and a 'Actions' section with 'Preview' and 'Queue Adjustment' buttons. Below this is a table showing 'Price Type' and 'Matched Rows'. The table lists 5 records found, with columns for Price Type, SKU, Identifier, Old Value, New Value, Old Application Type, and New Application Type. The records are as follows:

Price Type	Matched Rows
Pricelist	5

<input type="checkbox"/>	Price Type	SKU	Identifier	Old Value	New Value	Old Application Type	New Application Type
<input type="checkbox"/>	pricelist	24-MB01	Pricelist Wholesale Core Catalog (ID: 40)	59	64	Fixed	Fixed
<input type="checkbox"/>	pricelist	24-MB01	Pricelist Wholesale Core Catalog (ID: 40)	54	59	Fixed	Fixed
<input type="checkbox"/>	pricelist	24-MB02	Pricelist Wholesale Core Catalog (ID: 40)	74	79	Fixed	Fixed
<input type="checkbox"/>	pricelist	24-MB03	Pricelist Enterprise Contract 2026 (ID: 43)	89	94	Fixed	Fixed
<input type="checkbox"/>	pricelist	24-MB04	Pricelist Enterprise Contract 2026 (ID: 43)	99	104	Fixed	Fixed

At the bottom right, there is a footer with 'Copyright © 2026 Magento Commerce Inc. All rights reserved.', 'Magento ver. 2.4.8-p3', 'Hyvä Theme Module ver. 1.4.3', and links for 'Privacy Policy', 'Account Activity', and 'Report an Issue'. A 'Price Adjustment Help' button is also present.
