EXTENSION
Magento 2 Extension Product-Customer Matrix Prices

Installation

Pricesystem Core is included and installed as a dependency.

Replace `repo.softwaresilo.io`, `softwaresilo`, `https://repo.softwaresilo.io/` and `<token>` with the repository details shown under **Account > Licenses** in your SoftwareSilo account — see Installation & Updates.

```
composer config bearer.repo.softwaresilo.io <token>
composer config repositories.softwaresilo composer
https://repo.softwaresilo.io/
composer require mageb2b/pricesystem-productcustomermatrix:*

php bin/magento module:enable
MageB2B_PricesystemProductCustomerMatrix
php bin/magento setup:upgrade
php bin/magento setup:di:compile
php bin/magento setup:static-content:deploy
php bin/magento cache:flush
```

Check the module state:

```
php bin/magento module:status
MageB2B_PricesystemProductCustomerMatrix
```

In the Admin, open **Pricesystem > Product Customer Matrix > All Matrix Prices**. The grid should load and provide an action to create a matrix.

Continue with configuration.
