# Configuration Fields

This reference lists the settings exposed by `mageb2b/productfee` in Magento Admin.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

## General

| Field               | Configuration path                      | Input  | Scope            |
|---------------------|-----------------------------------------|--------|------------------|
| Enable product fees | <code>productfee/general/enabled</code> | Select | Default, Website |

## Tax

| Field                            | Configuration path                              | Input  | Scope            |
|----------------------------------|-------------------------------------------------|--------|------------------|
| Apply tax to product fees        | <code>productfee/tax/apply_tax</code>           | Select | Default, Website |
| Include product fees in subtotal | <code>productfee/tax/include_in_subtotal</code> | Select | Default, Website |

## Display

| Field                        | Configuration path                            | Input  | Scope            |
|------------------------------|-----------------------------------------------|--------|------------------|
| Display in cart and checkout | <code>productfee/display/cart_checkout</code> | Select | Default, Website |
| Display on product view page | <code>productfee/display/product_view</code>  | Select | Default, Website |
| Display in sales documents   | <code>productfee/display/sales</code>         | Select | Default, Website |
| Display in emails            | <code>productfee/display/email</code>         | Select | Default, Website |

| Field                                               | Configuration path                                              | Input  | Scope            |
|-----------------------------------------------------|-----------------------------------------------------------------|--------|------------------|
| Hide zero fee rows from the totals section in admin | <code>productfee/display/admin_totals_hide_zero_fee_rows</code> | Select | Default, Website |

## Totals Sort

| Field        | Configuration path                        | Input | Scope            |
|--------------|-------------------------------------------|-------|------------------|
| Product fees | <code>sales/totals_sort/productfee</code> | Text  | Default, Website |
