cXML Core Templates

Punchout Documentation · </punchout/templates/cxml-core>

This page covers protocol-generic cXML outbound templates.

cxml_outbound_core

- Direction: Outbound
- Rules: 6 (5 required)
- When to use: Standard PunchOutOrderMessage transfer for mixed cXML buyers.
- Key target fields: ItemIn@quantity, ItemID/SupplierPartID, ItemDetail/UnitPrice/Money, ItemDetail/Description, ItemDetail/UnitOfMeasure, ItemDetail/Classification.

cxml_outbound_level2

- Direction: Outbound
- Rules: 5 (all optional)
- When to use: Add optional level-2 fields on top of a core mapping profile.
- Key target fields: ItemID/SupplierPartAuxiliaryID, ItemDetail/ManufacturerName, ItemDetail/ManufacturerPartID, ItemDetail/Classification@domain, ItemDetail/Extrinsic[name=ImageURL].
