Sales Staff Extension · /staff/addons/tfa

This page is an availability note.

In the currently audited codebase (`./magento248/vendor/mageb2b/staff*`), no `staff-tfa` module/package is present.

If your project includes a separate TFA add-on package, use that package's own docs and installed module config to determine:

- available features
- setup flow
- configuration paths
- recovery/reset process
