EXTENSION
[Magento 2 Extension Sales Staff](#)

Configuration Fields

This reference lists the Magento Admin settings exposed by the base package and its documented add-ons: `mageb2b/staff`, `mageb2b/staff-customerhistory`, `mageb2b/staff-customervisit`, `mageb2b/staff-importexport`, `mageb2b/staff-quote`.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

mageb2b/staff

General settings

Field	Configuration path	Input	Scope
Session lifetime (seconds)	<code>staff/general/session_lifetime</code>	Text	Default, Website, Store view
Can customer have multiple staff	<code>staff/general/customer_have_multiplestaff</code>	Select	Default, Website, Store view

Can staff delete his own customers?	<code>staff/general/staff_can_delete_customer</code>	Select	Default, Website, Store view
Can customer reassign own account to another Sales Staff (Frontend)?	<code>staff/general/can_customer_reassign_another_staff</code>	Select	Default, Website, Store view
Reset link expiration period (hours)	<code>staff/general/reset_link_expiration_period</code>	Text	Default, Website
Login token expiration period (minutes)	<code>staff/general/login_token_expiration_minutes</code>	Text	Default, Website
Minimum Password Length	<code>staff/general/minimum_password_length</code>	Text	Default, Website
Required Character Classes Number	<code>staff/general/required_character_classes_number</code>	Text	Default, Website
Show comments in my customers list	<code>staff/general/show_comments_in_my_customers_list</code>	Select	Default, Website
Display staff in customer dashboard	<code>staff/general/display_staff_in_customer_dashboard</code>	Select	Default, Website
Display primary staff account only	<code>staff/general/display_primary_staff_only</code>	Select	Default, Website
Default staff image	<code>staff/general/staff_default_image</code>	Image	Default
Show all assigned customers by default inside my customers section	<code>staff/general/show_customers_by_default</code>	Select	Default, Website
Enable External Customer ID on customer grid	<code>staff/general/enable_external_customer_id_on_customer_grid</code>	Select	Default, Website
External Customer ID attribute code	<code>staff/general/external_customer_id_attribute_on_customer_grid</code>	Text	Default, Website
Allow 0 Price on Item Price Edit	<code>staff/general/allow_zero_price_on_item_price_edit</code>	Select	Default, Website

Field	Configuration path	Input	Scope
Restrict customer groups	<code>staff/general/restrict_customer_groups</code>	Multi-select	Default, Website
Set staff permanently on order	<code>staff/general/set_staff_id_permanently_on_order</code>	Select	Default, Website
Search filters for customer grid	<code>staff/general/search_filters_for_customer_grid</code>	Custom control	Default, Website
Filter default billing address only	<code>staff/general/filter_default_billing_address_only</code>	Select	Default, Website
Filter default shipping address only	<code>staff/general/filter_default_shipping_address_only</code>	Select	Default, Website
Enable limiter on Customer Grid	<code>staff/general/enable_limiter_on_customer_grid</code>	Select	Default, Website
Default Staff Group	<code>staff/general/default_staff_group</code>	Select	Default, Website
Not allowed handles	<code>staff/general/not_allowed_handles</code>	Custom control	Default

Visibility dependencies:

- `staff/general/display_primary_staff_only` is available when `staff/general/display_staff_in_customer_dashboard` is `1`.
- `staff/general/external_customer_id_attribute_on_customer_grid` is available when `staff/general/enable_external_customer_id_on_customer_grid` is `1`.

Commission settings

Field	Configuration path	Input	Scope
Commission type	<code>staff/commission/commission_type</code>	Select	Default, Website, Store view
Show commission for Staff at my staff account page at frontend?	<code>staff/commission/show_commission_for_staff</code>	Select	Default, Website, Store view

Report settings

Field	Configuration path	Input	Scope
Show sales report for staff in frontend	<code>staff/report/show_at_frontend</code>	Select	Default, Website, Store view

Admin settings

Field	Configuration path	Input	Scope
Add Sales Staff to Order Grid	<code>staff/admin/add_sales_staff_to_order_grid</code>	Select	Default, Website, Store view
Add Reassign feature for Sales Staff to Order Grid	<code>staff/admin/add_reassign_sales_staff_to_order_grid</code>	Select	Default, Website, Store view

Customer registration settings

Field	Configuration path	Input	Scope
Enable creating new customer	<code>staff/customer_registration/enable_creating_new_customer</code>	Select	Default, Website, Store view
Show customer group field on customer registration	<code>staff/customer_registration/show_customer_group</code>	Select	Default, Website, Store view
Show address fields on customer registration	<code>staff/customer_registration/show_address</code>	Select	Default, Website, Store view
Show vat field	<code>staff/customer_registration/show_vat_field</code>	Select	Default, Website, Store view
Can Staff set password for customer	<code>staff/customer_registration/staff_can_password_customer</code>	Select	Default, Website, Store view

Staff Order Management

Field	Configuration path	Input	Scope
Order States Allowed for Editing	<code>staff/order_edit/allowed_order_state</code>	Multi-select	Default, Website, Store view
Disregard Minimum Order Amount for Staff Orders	<code>staff/order_edit/disregard_min_order_amount</code>	Select	Default, Website, Store view
Disregard Quantity Restrictions for Staff Orders	<code>staff/order_edit/disregard_min_qty_min_sale_qty</code>	Select	Default, Website, Store view
Allow Backorders for Staff Orders	<code>staff/order_edit/allow_backorders</code>	Select	Default, Website, Store view

Email settings

Field	Configuration path	Input	Scope
Activated Emails	<code>staff/email/enabled_templates</code>	Multi-select	Default, Website, Store view
Apply following settings to	<code>staff/email/apply_settings_to</code>	Multi-select	Default, Website
Email order to	<code>staff/email/email_order_to</code>	Select	Default, Website
Sent email copy to staff when customer is placing an order	<code>staff/email/customer_order_email_copy</code>	Select	Default, Website, Store view
Email template new staff	<code>staff/email/staff_new_template</code>	Select	Default, Website, Store view
Email template password for customer created by staff	<code>staff/email/staff_set_password_customer_template</code>	Select	Default, Website, Store view
Email template for staff activation	<code>staff/email/staff_activated</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
Email template for staff de-activation	<code>staff/email/staff_de_activated</code>	Select	Default, Website, Store view
Email template for staff forgot password	<code>staff/email/forgot_password</code>	Select	Default, Website, Store view
Email template for staff password updated	<code>staff/email/password_updated</code>	Select	Default, Website, Store view
Send plain password in staff account emails	<code>staff/email/use_plain_password</code>	Select	Default, Website
CC Receiver for staff emails	<code>staff/email/send_cc</code>	Text	Default, Website, Store view
BCC Receiver for staff emails	<code>staff/email/send_bcc</code>	Text	Default, Website, Store view
Send order email from fixed Store View	<code>staff/email/send_order_email_from_fixed_storeview</code>	Select	Default, Website
Staff name and email details	<code>staff/email/name_email_details</code>	Text	Default, Website, Store view

Visibility dependencies:

- `staff/email/customer_order_email_copy` is available when `staff/general/set_staff_id_permanently_on_order` is 1.

Pricesystem settings

Field	Configuration path	Input	Scope
Display additional pricesystem prices	<code>staff/pricesystem/use_dropdown_as_cart_price_edit_field</code>	Select	Default, Website

`mageb2b/staff-customerhistory`

Customer history

Field	Configuration path	Input	Scope
Add order history as customer history	<code>staff/history/add_order_history_as_customer_history</code>	Select	Default, Website
Available Topics	<code>staff/history/topics</code>	Custom control	Default, Website, Store view
Customer Rating Rules	<code>staff/history/customer_rating_rules</code>	Custom control	Default, Website
Default Rating	<code>staff/history/customer_rating_default</code>	Text	Default, Website
Allowed Extensions	<code>staff/history/allowed_extensions</code>	Text area	Default, Website
Base path	<code>staff/history/files_upload_path</code>	Text	Default, Website
Filesize	<code>staff/history/maximum_file_size</code>	Text	Default, Website
Maximum Files Per Entry	<code>staff/history/max_files_per_entry</code>	Text	Default, Website
Staff can delete history entries	<code>staff/history/allow_delete_own_history</code>	Select	Default, Website

Email

Field	Configuration path	Input	Scope
Email template to send history email alert to customer	<code>staff/email/history_email_alert</code>	Select	Default, Website, Store view

mageb2b/staff-customervisit

Visit Settings

Field	Configuration path	Input	Scope
-------	--------------------	-------	-------

Field	Configuration path	Input	Scope
Allow inform customer	<code>staff/visit/inform_customer</code>	Select	Default, Website, Store view
Allow accept invitation	<code>staff/visit/accept_invitation</code>	Select	Default, Website, Store view
Default visit status	<code>staff/visit/default_status</code>	Select	Default, Website, Store view
Default visit type	<code>staff/visit/default_visit_type</code>	Select	Default, Website, Store view
Closest visits days range	<code>staff/visit/closest_days_range</code>	Text	Default, Website, Store view
ICS token expiry (days)	<code>staff/visit/ics_token_expiry_days</code>	Text	Default, Website, Store view
Customer action link expiry (days)	<code>staff/visit/customer_action_link_expiry_days</code>	Text	Default, Website, Store view
Show upcoming visits in customer's Account Dashboard	<code>staff/visit/show_upcoming_visits_in_dashboard</code>	Select	Default, Website, Store view
Show recent visits in customer's Account Dashboard	<code>staff/visit/show_recent_visits_in_dashboard</code>	Select	Default, Website, Store view
Show weekend days in calendar	<code>staff/visit/show_weekend_days_in_calendar</code>	Select	Default, Website, Store view

Calendar Integration

Field	Configuration path	Input	Scope
Enable external calendar synchronization	<code>staff/calendar_integration/sync_enabled</code>	Select	Default, Website, Store view
External calendar provider	<code>staff/calendar_integration/sync_provider</code>	Select	Default, Website, Store view
Google Client ID	<code>staff/calendar_integration/google_client_id</code>	Protected text	Default, Website, Store view
Google Client Secret	<code>staff/calendar_integration/google_client_secret</code>	Protected text	Default, Website, Store view
Google OAuth Redirect URI	<code>staff/calendar_integration/google_redirect_uri</code>	Text	Default, Website, Store view
Google Calendar ID	<code>staff/calendar_integration/google_calendar_id</code>	Text	Default, Website, Store view
Microsoft Client ID	<code>staff/calendar_integration/microsoft_client_id</code>	Protected text	Default, Website, Store view
Microsoft Calendar User ID	<code>staff/calendar_integration/microsoft_user_id</code>	Text	Default, Website, Store view
Microsoft Client Secret	<code>staff/calendar_integration/microsoft_client_secret</code>	Protected text	Default, Website, Store view
Microsoft Tenant ID	<code>staff/calendar_integration/microsoft_tenant_id</code>	Protected text	Default, Website, Store view
Microsoft OAuth Redirect URI	<code>staff/calendar_integration/microsoft_redirect_uri</code>	Text	Default, Website, Store view

Visibility dependencies:

- `staff/calendar_integration/sync_provider` is available when `staff/calendar_integration/sync_enabled` is 1.
- `staff/calendar_integration/google_client_id` is available when `staff/calendar_integration/sync_enabled` is 1.
- `staff/calendar_integration/google_client_id` is available when

`staff/calendar_integration/sync_provider` is `google`.

- `staff/calendar_integration/google_client_secret` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/google_client_secret` is available when `staff/calendar_integration/sync_provider` is `google`.
- `staff/calendar_integration/google_redirect_uri` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/google_redirect_uri` is available when `staff/calendar_integration/sync_provider` is `google`.
- `staff/calendar_integration/google_calendar_id` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/google_calendar_id` is available when `staff/calendar_integration/sync_provider` is `google`.
- `staff/calendar_integration/microsoft_client_id` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/microsoft_client_id` is available when `staff/calendar_integration/sync_provider` is `microsoft`.
- `staff/calendar_integration/microsoft_user_id` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/microsoft_user_id` is available when `staff/calendar_integration/sync_provider` is `microsoft`.
- `staff/calendar_integration/microsoft_client_secret` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/microsoft_client_secret` is available when `staff/calendar_integration/sync_provider` is `microsoft`.
- `staff/calendar_integration/microsoft_tenant_id` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/microsoft_tenant_id` is available when `staff/calendar_integration/sync_provider` is `microsoft`.
- `staff/calendar_integration/microsoft_redirect_uri` is available when `staff/calendar_integration/sync_enabled` is `1`.
- `staff/calendar_integration/microsoft_redirect_uri` is available when `staff/calendar_integration/sync_provider` is `microsoft`.

mageb2b/staff-importexport

Import settings

Field	Configuration path	Input	Scope
Send new staff account email on import	<code>staff/import/send_email_on_new_account_creation</code>	Select	Default, Website

mageb2b/staff-quote

Quote Settings

Field	Configuration path	Input	Scope
Show Request Quote for Customer	<code>staff/quote/show_request_menu</code>	Select	Default, Website, Store view
Default Quote Expiry (Days)	<code>staff/quote/quote_expiry_days</code>	Text	Default, Website, Store view
Enable Expiry Reminder	<code>staff/quote/enable_expiry_reminder</code>	Select	Default, Website, Store view
Days Before Expiry to Remind Customer	<code>staff/quote/reminder_days_before</code>	Text	Default, Website, Store view
Quote Number Format	<code>staff/quote/quote_number_format</code>	Text	Default, Website, Store view
PDF Company Logo	<code>staff/quote/pdf_logo_path</code>	Image	Default, Website, Store view
PDF Company Name	<code>staff/quote/pdf_company_name</code>	Text	Default, Website, Store view
PDF Company Address	<code>staff/quote/pdf_company_address</code>	Text	Default, Website, Store view

Field	Configuration path	Input	Scope
PDF Company Contact	staff/quote/pdf_company_contact	Text	Default, Website, Store view
PDF Footer Text	staff/quote/pdf_footer_text	Text area	Default, Website, Store view
Require Valid Until Date Before Sending	staff/quote/require_valid_until	Select	Default, Website, Store view
Allow customer to create order from accepted quote	staff/quote/allow_customer_create_order	Select	Default, Website, Store view
Allow customer to add accepted quote to cart	staff/quote/allow_customer_add_to_cart	Select	Default, Website, Store view
Show Quote History on Customer Quote Page	staff/quote/show_history_customer_quote	Select	Default, Website, Store view
Customer Quote Token Policy	staff/quote/customer_token_policy	Select	Default, Website, Store view
Allow token-only customer quote actions	staff/quote/customer_token_actions	Multi-select	Default, Website, Store view
Allow Customer Attachments	staff/quote/allow_customer_attachments	Select	Default, Website, Store view
Allowed Attachment Extensions (CSV)	staff/quote/allowed_extensions	Text	Default, Website, Store view

Field	Configuration path	Input	Scope
Max Attachment Size (MB)	<code>staff/quote/max_attachment_size_mb</code>	Text	Default, Website, Store view
Max Attachments per Quote	<code>staff/quote/max_attachments_per_quote</code>	Text	Default, Website, Store view

Visibility dependencies:

- `staff/quote/reminder_days_before` is available when `staff/quote/enable_expiry_reminder` is 1.

Email

Field	Configuration path	Input	Scope
Send Rate Limit (Seconds)	<code>staff/email/send_rate_limit_seconds</code>	Text	Default, Website, Store view
Add Quote PDF as attachment	<code>staff/email/attach_pdf_to_customer</code>	Select	Default, Website, Store view
Quote Email Template	<code>staff/email/quote_template</code>	Select	Default, Website, Store view
Send Quote to Customer Email Template	<code>staff/email/quote_to_customer_template</code>	Select	Default, Website, Store view
Status Update Email Template	<code>staff/email/quote_status_update_template</code>	Select	Default, Website, Store view
Expiry Reminder Email Template	<code>staff/email/quote_expiry_reminder_template</code>	Select	Default, Website, Store view
Internal Notification Email Template	<code>staff/email/quote_internal_notification_template</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
Customer Quote Request Email Template	<code>staff/email/customer_quote_request_template</code>	Select	Default, Website, Store view
Attach Quote Files to Emails	<code>staff/email/attach_quote_attachments</code>	Select	Default, Website, Store view
Max Total Attachments Size (MB)	<code>staff/email/max_total_attachments_mb</code>	Text	Default, Website, Store view
