[Magento 2 Extension Sublogin](#)

Configuration Fields

This reference lists the Magento Admin settings exposed by the base package and its documented add-ons: `mageb2b/sublogin`, `mageb2b/sublogin-budget`, `mageb2b/sublogin-budget-one-time`, `mageb2b/sublogin-custom-catalog`, `mageb2b/sublogin-importexport`, `mageb2b/sublogin-orderapproval`, `mageb2b/sublogin-role`.

Configuration paths are included for controlled deployments and `config:set`. Use Magento Admin for normal changes so field validation and scope inheritance still apply. The extension status display is not listed because it reports installation state rather than a configurable value.

mageb2b/sublogin

General settings

Field	Configuration path	Input	Scope
Enabled	<code>sublogin/general/enabled</code>	Select	Default, Website, Store view
Default Value Can Create Sublogins	<code>sublogin/general/default_value_can_create_sublogins</code>	Select	Default, Website, Store view
Restrict order view for sublogins	<code>sublogin/general/restrict_order_view</code>	Select	Default, Website, Store view
Fallback label for missing sublogin	<code>sublogin/general/fallback_sublogin_title</code>	Text	Default, Website, Store view
Allow impersonate sublogin account	<code>sublogin/general/enable_mainaccount_login</code>	Select	Default, Website, Store view
Enable payment methods filter	<code>sublogin/general/enable_payment_methods_filter</code>	Select	Default, Website, Store view
Enable shipping methods filter	<code>sublogin/general/enable_shipping_methods_filter</code>	Select	Default, Website, Store view
Use shared cart	<code>sublogin/general/use_shared_cart</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
Use shared wishlist	<code>sublogin/general/use_shared_wishlist</code>	Select	Default, Website, Store view
Send sublogin order email also to customer account	<code>sublogin/general/cc_order_mainlogin</code>	Select	Default, Website
Save customer email in order table	<code>sublogin/general/save_customer_email_in_order</code>	Select	Default, Website, Store view
Massactions in frontend	<code>sublogin/general/massactions_frontend</code>	Multi-select	Default, Website, Store view
Require email confirmation of new created sublogin	<code>sublogin/general/require_confirmation</code>	Select	Default, Website, Store view
If sublogin is able to delete own account in frontend	<code>sublogin/general/delete_own_account</code>	Select	Default, Website
Reactivate account when disabled	<code>sublogin/general/reactivate_account_when_disabled</code>	Select	Default, Website

Public signup

Field	Configuration path	Input	Scope
Enable public sublogin signup	<code>sublogin/signup/enabled</code>	Select	Default, Website
Activate sublogin immediately after signup	<code>sublogin/signup/activate_on_signup</code>	Select	Default, Website

Visibility dependencies:

- `sublogin/signup/activate_on_signup` is available when `sublogin/signup/enabled` is 1.

Admin settings

Field	Configuration path	Input	Scope
Filter Sublogin Addresses on Customer Edit	<code>sublogin/admin/filter_sublogin_addresses_on_customer</code>	Select	Default, Website

Address settings

Field	Configuration path	Input	Scope
Address management for sublogins	<code>sublogin/address/management</code>	Select	Default, Website, Store view
Use sublogin address as a customer	<code>sublogin/address/use_sublogin_address</code>	Select	Default, Website, Store view
If set, a sublogin is bound to the default billing address of the customer	<code>sublogin/address/enable_billing_address_restriction</code>	Select	Default, Website
Enable add new address option for sublogins in checkout	<code>sublogin/address/add_new_address_option</code>	Select	Default, Website
Show customer address under my account for sublogin	<code>sublogin/address/show_customeraddress_under_myaccount</code>	Select	Default, Website, Store view
Automatically add new customer address	<code>sublogin/address/automatically_add_customer_address</code>	Select	Default, Website, Store view
Set customer default address as sublogin default address	<code>sublogin/address/set_customer_default_address_as_sublogin_default</code>	Select	Default, Website, Store view
Allow customer to delete an address used by his sublogins in frontend	<code>sublogin/address/allow_customer_delete_used_sublogin_address</code>	Select	Default, Website, Store view
Show main address under My Sublogins	<code>sublogin/address/show_main_address</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
Not available address message	<code>sublogin/address/not_available_address_message</code>	Text	Default, Website, Store view

Visibility dependencies:

- `sublogin/address/automatically_add_customer_address` is available when `sublogin/address/management` is 2.
- `sublogin/address/set_customer_default_address_as_sublogin_default` is available when `sublogin/address/management` is 1,2.
- `sublogin/address/not_available_address_message` is available when `sublogin/address/show_main_address` is 1.

Report settings

Field	Configuration path	Input	Scope
Enable reports for customer	<code>sublogin/report/enable_for_customer</code>	Select	Default, Website, Store view
Enable reports for sublogin	<code>sublogin/report/enable_for_sublogin</code>	Select	Default, Website, Store view

Address Templates

Field	Configuration path	Input	Scope
Text	<code>sublogin/address_templates/text</code>	Text area	Default, Website, Store view
Text One Line	<code>sublogin/address_templates/online</code>	Text area	Default, Website, Store view
HTML	<code>sublogin/address_templates/html</code>	Text area	Default, Website, Store view

Email settings

Field	Configuration path	Input	Scope
Email Sender	<code>sublogin/email/identity</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
Use Sublogin Store ID	<code>sublogin/email/use_sublogin_store_id</code>	Select	Default, Website, Store view
Email template new sublogin	<code>sublogin/email/new</code>	Select	Default, Website, Store view
Email template new sublogin confirmation	<code>sublogin/email/confirmation</code>	Select	Default, Website, Store view
Email template new password	<code>sublogin/email/reset_password</code>	Select	Default, Website, Store view
Email template expired account refreshing	<code>sublogin/email/expire_refresh</code>	Select	Default, Website, Store view
Email template Password Reset Confirmation	<code>sublogin/email/password_reset_confirmation</code>	Select	Default, Website, Store view
Send plain password in sublogin account emails	<code>sublogin/email/use_plain_password</code>	Select	Default, Website
BCC Receiver for emails	<code>sublogin/email/send_bcc</code>	Text	Default, Website, Store view
Add order details to selected email templates	<code>sublogin/email/add_orderdetails_to_emails</code>	Multi-select	Default, Website, Store view
Email templates for store owner	<code>sublogin/email/email_templates_for_store</code>	Multi-select	Default, Website, Store view
Customer optional email templates	<code>sublogin/email/customer_optional_email_templates</code>	Multi-select	Default, Website, Store view
Sublogin optional email templates	<code>sublogin/email/sublogin_optional_email_templates</code>	Multi-select	Default, Website, Store view

Content settings

Field	Configuration path	Input	Scope
Static block for sublogin grid at frontend	<code>sublogin/content/frontend_sublogin_grid_before</code>	Text	Default, Website, Store view

Debug

Field	Configuration path	Input	Scope
Enable log	<code>sublogin/debug/enable_log</code>	Select	Default

mageb2b/sublogin-budget

Budget settings

Field	Configuration path	Input	Scope
Allowed Budget Types	<code>sublogin/budget/allowed_budgettypes</code>	Multi-select	Default, Website, Store view
Order Status for budget consideration	<code>sublogin/budget/order_status</code>	Multi-select	Default, Website
Budget Logic	<code>sublogin/budget/budget_logic</code>	Select	Default, Website
Allow budget restricted order to checkout	<code>sublogin/budget/allow_budget_restricted_order_to_checkout</code>	Select	Default, Website
Enable order approval on empty budget	<code>sublogin/budget/enable_order_approval_on_empty_budget</code>	Select	Default, Website
Enable Budget Summary in Frontend for Sublogin	<code>sublogin/budget/view_own_budget</code>	Select	Default, Website
Enable Budget Summary in Frontend for Customer	<code>sublogin/budget/view_own_budget_customer</code>	Select	Default, Website
Budget Amount Exceeded Message	<code>sublogin/budget/budget_amount_exceeded_message</code>	Text area	Default, Website, Store view

Field	Configuration path	Input	Scope
Budget Order Limit Exceeded Message	<code>sublogin/budget/budget_order_limit_exceeded_message</code>	Text area	Default, Website, Store view
Budget Calculation Basis	<code>sublogin/budget/budget_calculation_basis</code>	Select	Default, Website
Progress Bar Color Thresholds	<code>sublogin/budget/progress_bar_colors</code>	Text	Default, Website
Use only Pay on Budget orders for budget usage	<code>sublogin/budget/use_pay_on_budget_only</code>	Select	Default, Website
Enforce Pay on Budget as only payment method when budgets are available	<code>sublogin/budget/enforce_budget_payment_method</code>	Select	Default, Website

Visibility dependencies:

- `sublogin/budget/allow_budget_restricted_order_to_checkout` is available when `sublogin/order_approval/enabled` is 1.
- `sublogin/budget/enable_order_approval_on_empty_budget` is available when `sublogin/budget/allow_budget_restricted_order_to_checkout` is 1.

Pay on Budget

Field	Configuration path	Input	Scope
Enable Pay on Budget	<code>payment/sublogin_budget/active</code>	Select	Default, Website
Title	<code>payment/sublogin_budget/title</code>	Text	Default, Website, Store view
Sort Order	<code>payment/sublogin_budget/sort_order</code>	Text	Default, Website, Store view
Payment from Applicable Countries	<code>payment/sublogin_budget/allowspecific</code>	Select	Default, Website

Field	Configuration path	Input	Scope
Payment from Specific Countries	<code>payment/sublogin_budget/specificcountry</code>	Multi-select	Default, Website

Visibility dependencies:

- `payment/sublogin_budget/specificcountry` is available when `payment/sublogin_budget/allowspecific` is `1`.

`mageb2b/sublogin-budget-one-time`

One-Time Budget

Field	Configuration path	Input	Scope
Enable One-Time Budget Popup	<code>sublogin/budget_one_time/enabled</code>	Select	Default, Website
One-Time Budget Popup Message	<code>sublogin/budget_one_time/popup_message</code>	Text area	Default, Website, Store view

`mageb2b/sublogin-custom-catalog`

General

Field	Configuration path	Input	Scope
Enable Sublogin Integration	<code>customcatalog/general/sublogin_integration_active</code>	Select	Default, Website, Store view
Sublogin Merge Operator	<code>customcatalog/general/sublogin_merge_operator</code>	Select	Default, Website, Store view

Visibility dependencies:

- `customcatalog/general/sublogin_merge_operator` is available when `customcatalog/general/sublogin_integration_active` is `1`.

Sublogin Custom Catalog

Field	Configuration path	Input	Scope
Activate	<code>sublogin/custom_catalog/active</code>	Select	Default, Website, Store view
Allow sublogin "My Products" access	<code>sublogin/custom_catalog/allow_sublogin_view</code>	Select	Default, Website, Store view
Enforce ACL check	<code>sublogin/custom_catalog/enforce_acl</code>	Select	Default, Website, Store view

mageb2b/sublogin-importexport

Import/Export settings

Field	Configuration path	Input	Scope
Generate Missing Import Passwords	<code>sublogin/import_export/generate_missing_passwords</code>	Select	Default, Website, Store view

mageb2b/sublogin-orderapproval

Order approval settings

Field	Configuration path	Input	Scope
Enable Order Approval	<code>sublogin/order_approval/enabled</code>	Select	Default, Website, Store view
Can Edit Order In Approval State	<code>sublogin/order_approval/can_edit_in_approval_order</code>	Select	Default, Website, Store view
Order Approval Notice	<code>sublogin/order_approval/order_approval_notice</code>	Text area	Default, Website, Store view
Delete not approved orders	<code>sublogin/order_approval/delete_notapproved_order</code>	Select	Default, Website, Store view

Field	Configuration path	Input	Scope
On massaction check approval state	sublogin/order_approval/massaction_check_on_approval_state	Select	Default, Website, Store view
Order Pre-approval state	sublogin/order_approval/preapproval_state	Select	Default, Website, Store view
Order Pre-approval status	sublogin/order_approval/preapproval_status	Select	Default, Website, Store view
Order approval state	sublogin/order_approval/approval_state	Select	Default, Website, Store view
Order approval status	sublogin/order_approval/approval_status	Select	Default, Website, Store view
Order approved state	sublogin/order_approval/approved_state	Select	Default, Website, Store view
Order approved status	sublogin/order_approval/approved_status	Select	Default, Website, Store view
Order decline state	sublogin/order_approval/not_approved_state	Select	Default, Website, Store view
Order declinestate	sublogin/order_approval/not_approved_status	Select	Default, Website, Store view
Can decline preapproval orders	sublogin/order_approval/can_decline_preapproval_order	Select	Default, Website, Store view
Auto approve edited order	sublogin/order_approval/auto_approve_edited_order	Select	Default, Website, Store view
Show decline comment on frontend	sublogin/order_approval/show_decline_comment_on_frontend	Select	Default, Website, Store view
Enable comments for	sublogin/order_approval/enable_comments_for	Multi-select	Default, Website, Store view
Show order edit comment on frontend	sublogin/order_approval/show_order_edit_comment_on_frontend	Select	Default, Website, Store view

Email

Field	Configuration path	Input	Scope
Email template Order Require Approval	<code>sublogin/email/order_require_approval</code>	Select	Default, Website, Store view
Email template Order Approved	<code>sublogin/email/order_approved</code>	Select	Default, Website, Store view
Email template Order Declined	<code>sublogin/email/order_declined</code>	Select	Default, Website, Store view
Mainlogin Edited Order Template	<code>sublogin/email/mainlogin_edited_order_template</code>	Select	Default, Website, Store view
Deleted Order Email Template	<code>sublogin/email/deleted_order_template</code>	Select	Default, Website, Store view
Email template Main login order alert	<code>sublogin/email/mainlogin_orderalert</code>	Select	Default, Website, Store view
Receivers - Email template Order Approved	<code>sublogin/email/receivers_order_approved</code>	Multi-select	Default, Website
Receivers - Email template Order Declined	<code>sublogin/email/receivers_order_declined</code>	Multi-select	Default, Website
Receivers - Email template Main login order alert	<code>sublogin/email/receivers_mainlogin_orderalert</code>	Multi-select	Default, Website
Receivers - Final Order Confirmation	<code>sublogin/email/final_order_confirmation_receivers</code>	Multi-select	Default, Website

mageb2b/sublogin-role

Role settings

Field	Configuration path	Input	Scope
Is Active	<code>sublogin/role/is_active</code>	Select	Default, Website, Store view
Final Approve/Decline order when all group approved an order	<code>sublogin/role/all_group_approve_decline_mode</code>	Select	Default, Website, Store view

Visibility dependencies:

- `sublogin/role/all_group_approve_decline_mode` is available when `sublogin/order_approval/enabled` is 1.
